HOAGLAND'S
NEW PATENT SHAFT COUPLING!
W. E. COOPER
HAS PURCHASED THE RIGHT FOR THIS County of the above Patent, and will hereafter use it in the construction of all the Vehicles manufactured at his extensive
Carriage Factory,
Corner of Second and Morrison Streets.
He respectfully refers to the following
CARD.
Having examined the New Patent Shaft Coupling, invented by H. R. Hoagland, we feel pleasure in informing the public that in our opinion it is the safest and best method of connecting shafts or tongues to all vehicles that has ever been used.
It fastens without bolt or screw, and is therefore, easily and speedily separated. It rests on Gutta Percha so as to be entirely free from the rattling sound which so often disturbs restless horses. It is easily changed so that the shafts or tongue may be detached in an instant, and is convenient, safe and secure.
It is easy to change to this style of coupling any buggy or other vehicle now in use, and with small expense. *We have come to the conclusion to use this new Invention* ourselves and recommend its use in all cases. We consider it far superior to the Brewster Patent, heretofore considered the best in use.

[DISPATCHES TO THE OREGONIAN.]

DATES TO AUGUST 11.

Washington News.

WASHINGTON, Aug. 11.—Great interest is felt to ascertain the results of the Cabinet meeting. Nothing whatever has transpired beyond the fact of the transaction of an unusual amount of routine business and several suspensions and appointments to office.

Secretary Robeson, Vice Admiral Porter and other prominent officials left this evening on the *Tallahassee* for a tour of inspection along the coast.

WASHINGTON, Aug. 11.—Senor Marical, the new Mexican Minister, was presented to the President to-day, and delivered his credentials.

President Grant neither verbally or by letter has requested Judge Dent to withdraw from the Mississippi canvass. In view of the complications Judge Dent will canvass Mississippi in the interest of the conservative Republican ticket. Meantime he continues a candidate before the convention.

New York News.

NEW YORK, Aug. 11.—It is understood that the American Express robbers obtained $140,000.

A report is current here this afternoon that James Fisk, Jr., has been killed in a fracas connected with the Susquehanna Railroad. The report lacks confirmation and is generally discredited.

Marshal Barlow has received an order from the Secretary of State to transfer the custody of the Spanish gunboats to the commander of the Brooklyn Navy Yard.

Judge McCunn has decided to discharge Pratt, the alleged Texas rioter, but as Pratt is in military custody, it does not appear how he can do it.

NEW YORK, Aug. 11.—It is believed by the friends of Bowers, Beekman & Co. that they will be able to pay 100 cents on the dollar.

Twenty Cuban prisoners have escaped from Fernado Po. Three arrived at Java, and others are *expected in a few days.*

The National Labor Convention meets at Philadelphia on Monday. The eight-hour, Chinese and apprenticeship questions will be discussed.

A special from New York says work is being pushed on the railroad from Hoboken to Norfolk. The company expects to build on the west side to Albany.

The cargo of the steamship *Germania*, valued at over one hundred and fifty thousand dollars, is probably a total loss.

Peaches are selling in New York city at fifty cents per bushel and sixty thousand bushels are daily arriving from Delaware this week.

Alabama Election.

MONTGOMERY, Aug. 11.—Full returns of the Congressional election establish the fact that the Republicans have elected in the First, Second, Third and Fourth Districts, and the Democrats in the Fifth and Sixth. So the Democrats gain two Representatives in the *41st* Congress. All the Republican vote of the State is little if any more than half that cast at the Presidential election.

MONTGOMERY, Aug. 11.—A petition of some Republicans in Mobile was sent yesterday to Gov. Smith asking him to place the city under martial law. Delegations of citizens from Mobile arrived to-day and had a satisfactory interview with the Governor, resulting in his declining to put the city under military authority.

Removal of the Capital.

ST. LOUIS, Aug. 11.—An enthusiastic meeting was held at the City Council Hall last night, to *consider the question of removing the National* Capital to the Mississippi valley. Many speeches were made and resolutions were adopted in favor of calling a National Convention at St. Louis, on October 6th, composed of two delegates from each Congressional District in the United States and from the Territories, with three delegates at large from each State and Territory, to be appointed by the Governor. A committee was appointed to carry out the resolutions.

Continuation of the Railroad War.

BINGHAMTON, Aug. 11, Midnight.—The reports from the Susquehannah railroad war state that the *opposing parties stationed in the tunnel,* had a fight and drove each other alternately through the tunnel. Several persons were badly injured. All are quiet now, as the parties are awaiting daylight.

ALBANY, Aug. 11.—Governor Hoffman arrived here to-night and immediately telegraphed an order to sheriffs along the line of the Albany and Susquehannah railroad, that the military should not interfere except it was absolutely necessary for the preservation of public order; that in view of the complication of the affairs, wherever either party has actual possession of property, claiming the same under any judicial order, such party is to be protected until the question is finally adjudicated by courts. Any other course would lead to unnecessary strife and confusion. He says further, that if the entire interruption of public travel continues, and tumult, riot and resistance to the authorities are imminent, he will declare the whole district in a state of insurrection and take possession of the road, and to that end, if necessary, call out the whole military force of the State.

Virginia Affairs.

NEW YORK, Aug. 11,—The New York *Herald's* special from Richmond says Gov. Walker, who has been on a visit to this city for the past two days, had an interview with Gen. Canby on matters relating to the State. The result has not transpired. The Governor left for Norfolk this evening.

The count of the vote on the Constitution and for State officers being now finished, Gen. Canby has signified his intention of promulgating the result of the election thus far in a few days. Full ten days must elapse before the vote on members of Congress and Legislature will be counted, and over two weeks before the result of the latter can be made known.

Negotiations for Cuban Independence.

The New York *Herald* says that the new Commander of our fleet in the Cuban waters earnestly sympathizes with the Cuban movement.

The *World* says Paul Forbes of this city, has been sent to Madrid by the Administration as confidential government agent, and associated with Gen. Sickles; *a place for which his former* intimacy with him especially qualifies him. Full private directions were given to Mr. Forbes, and formal instructions to Mr. Sickles, to try and induce Spain to concede political sovereignty to the Cubans on condition of the latter pledging themselves to pay Spain a certain amount of money, to be in some way guaranteed by the United States. The plan is heartily approved by Loares, the Cuban agent in this country.

A special from Washington says Sickles telegraphed Secretary Fish that his proposition was rejected.

Tennessee Affairs.

NEW YORK, Aug. 11.—A special from Nashville says that Voville, one of the editors of the *Tennessee State Journal*, a Stokes organ, received a written notice to leave within 24 hours. He will not go.

Governor Senter arrived to day and was escorted by a procession to the *public square.* Neil Brown delivered the speech of welcome. Gov. Senter replied, jubilating over the result of the election as the triumph of liberal principles over proscription.

NASHVILLE, Aug. 11.—Senter's majority is 62,000, with nineteen counties to hear from. The Senate, composed of 25 members, stands 21 Conservatives to 4 Conservative Republicans. The House stands 67 Conservatives to 6 Radicals and 6 Conservative Republicans, with two districts to hear from.

In a recent speech Emerson Etheridge expressed his opposition to paying any portion of the twenty millions of debt contracted under Brownlow's Administration.

Buffalo Dispatch.

BUFFALO, Aug. 11.—The Fourth Annual meeting of the Buffalo Park Association commenced yesterday. The first race and purse was one thousand dollars for horses which never beat three minutes. It was won by Greyhawk in three straight heats with five competitors. The second race was for a purse of two thousand dollars. Nine horses started and was one by Henry in three straight heats. This horse is seven years old, and promises to become one of the leading horses in the country. Best time, 2 25½.

To-day's races which promises to be very exciting are for a three thousand dollars purse. Fourteen entries. It is expected some fast time will be made. Fully six thousand persons were present yesterday.

Daring Express Robbery.

ALBANY, Aug. 11.—Particulars of the express robbery on the Central railroad last night show that the robbers got on the train, entered the baggage car and attacked the baggage man and express messenger, saying there were eight of them and resistance would be useless. They made a stout resistance, however. Their condition shows that they were almost suffocated by gags and chloroform. The robbers left at West Albany. It is a very heavy loss.

Pendleton Nominated.

COLUMBUS, O., Aug. 11.—The Democratic State Central Committee met to-day and nominated Geo. H. Pendleton for Governor. Pendleton accepted.

Grand Reunion at Gettysburg.

GETTYSBURG, Aug. 11.—The reunion of the officers of both armies on the 23d inst. promises to be a complete success. Telegrams indicate that the officers of every grade will be present.

Union Pacific Railroad.

BOSTON, Aug. 11.—The earnings of the Union Pacific Railroad from May 10th to the completion June 1st, are in round numbers $412,475. During the month of June $676,949. For July, $653,729. This statement is taken from the books of the company. A large amount of freight is now starting over the road, induced by the lower rates just offered, and will largely increase the receipts for the present month.

Settlement of the Railroad Controversy.

ALBANY, Aug. 11.—Gov. Hoffman gave the contending parties on the Susquehanna railroad to understand that further riotous proceeding must cease, and the question of control must be settled by the courts. The parties undertook to agree upon some method of adjustment, but failed; whereupon the Governor said he would be compelled to declare that district of the State in insurrection, and take possession of the road as a military necessity, and run it as a military road. The counsel of the respective parties thereupon held a consultation resulting in signing a request to the Governor to take charge of the road and appoint a suitable person to superintend and run it until the matter is settled. In pursuance of this agreement and request, the Governor issued an order appointing Gen. Jas. McQuade, Superintendent till further orders, directing him to arrange immediately for running regular trains.

Prohibition in Connecticut.

HARTFORD, Aug. 11.—The State Temperance Convention, held here to-day, adopted resolutions favoring the formation of an independent political temperance party, pledging the convention not to vote for legislative or executive officers unless they will favor and sustain prohibitory legislation.

Another Fenian Raid.

MONTREAL, Aug. 11.—An evening paper says it has positive information of preparations progressing for a Fenian raid in September next, from the direction of Malone and Buffalo.

Miscellaneous.

SPRINGFIELD, Aug. 11.—Five hundred persons belonging to the Lyman family, representing a dozen States and Canada, held a family gathering at Mount Tom. Rev. Dr. Lyman Colman of Lafayette College, Easton, Pennsylvania, delivered the address.

BALTIMORE, Aug. 11.—Three persons who escaped from jail on Monday evening were recaptured in this place and the remainder at Union bridge, Carroll county, Maryland, except Dennis, the express robber, who is still at large. Hoffman and other express robbers who escaped were retaken at Union bridge.

UTICA, Aug. 11.—A woman named Eliza Johnson died suddenly in the office of Dr. Nathan Bingham in this city to-day. The evidence of the coroner's jury was such that Dr. Bingham has been arrested on the charge of causing her death, while attempting to perform an abortion.

ST. LOUIS, Aug. 11.—A. Christy, an old and wealthy citizen, and one of the principal owners of the Wiggins Ferry, died to-day.

CINCINNATI, Aug. 11.—The Chamber of Commerce held a meeting this evening and appointed commissioners to arrange for an excursion to San Francisco via St. Louis, starting about September 1st.

BY ATLANTIC CABLE.

LONDON, Aug. 11.—The *Times* to-day, in a long article upon Spain and Cuba, says on the latter ground, that the former is better off without Cuba than with it, and as she can't hold it any way, she may think herself particularly fortunate if she gets paid.

Jas. Milliken, of Philadelphia, has obtained Lord Clarendon's sanction for instructions to be issued by the Admiralty to the British fleet in China waters to co-operate with the Asiatic squadron of the United States in laying and protecting telegraphic cable along the coast of China. This is an American enterprise in which some English capitalists are also interested.

LONDON, Aug. 11.—Mr. Motley, the American Minister, has appointed Mr. Eastman, of Queenstown, Consul pro. tem. of the United States at Glasgow.

The Harvard crew were out in their new boat to day. They timed regularly and made forty strokes a minute. It is the opinion of boatmen that the Harvards are less steady in their rowing than the Oxfords, but their strokes are apparently short, deep, and make a good distance in a short time. *Wednesday, the 25th of August,* has been finally agreed on as the day of the race.

The Liverpool Chamber of Commerce has resolved to send a complaint to the Chambers of Commerce of the United States against the practice of putting an unnecessary amount of covering and iron bands of excessive weight on cotton bales.

The loan bill passed the House of Lords to-day.

LONDON, Aug. 11.—At the inquest of the body of Cornelius Grinnell, who fell from the window of a Club house in the Isle of Wight yesterday, the verdict was, accidental death. James Gordon Bennett, Jr., and Shepard Yeomans who were with him a short time previous, testified that he was perfectly sober.

Gladstone has gone to the sea shore at Walmer, to recruit his health.

Parliament has been prorogued by a Royal Commission. The following message from the Queen was read by the Commission: We are commanded by the Queen to dispense with your further attendance in Parliament. Her Majesty announces to you with pleasure that she continues to receive from foreign Powers the strongest assurances of friendly disposition. Her confidence in the preservation of peace has been continued and confirmed during the present year. Negotiations in which Her Majesty engaged with the United States have been by mutual consent suspended. Her Majesty earnestly hopes that this delay may tend to maintain relations between the two countries on a durable basis. The Queen has a lively satisfaction in acknowledging the untiring *zeal and assiduousness with* which you have prosecuted the arduous labors of the year.

In the act for putting an end to the establishment of the Irish Church, you have carefully kept in view the several considerations which at the opening of the session were commended to your notice. It is the hope of the Queen that the measure may hereafter be remembered as a conclusive proof of the paramount anxiety of Parliament to pay reasonable regard in legislating for the three kingdoms to the special circumstances by which each may be distinguished, and to deal upon the principles of impartial justice with the inhabitants of all portions of the nation. The Queen trusts the act may promote the work of peace in Ireland and help to unite all classes of the people in that fraternal concord with their English and Scotch fellow-subjects, which must form the chief source of strength to the extended Empire.

The Queen congratulates you upon having brought your protracted labors on the subject of bankruptcy for debt to a conclusion which is regarded with just satisfaction by the trading classes. A general public law framed for the better government of endowed schools in England, will render the resources of those establishments more accessible to the community and efficient in their important purpose.

In the removal of the duties on corn, the Queen sees new evidence of your desire to extend industry and commerce and to enlarge the supplies of food, which our insular position encourages and requires.

The Queen trusts the measures for the purchase and the management of telegraphs by the state may be found to facilitate the great commercial and social object of a rapid, easy and certain communication, and not prove unworthy in the sequel. The system of cheap postage has passed with advantage into many countries of the world.

We are commanded to state that the Queen thanks you for the liberal supplies which you have granted for the service of the year, and the measure by which you have enabled Her Majesty to liquidate the charge of the Abyssinian expedition.

MADRID, Aug. 10.—The Spanish Consul at Bayonne telegraphs that the Carlists are gathering again on the frontier and intend to make an incursion into Spain to-morrow. The Government is fully prepared to meet them along the line.

MADRID, Aug. 11.—A party of five hundred Carlists have appeared on the frontier of Calatonia.

General Prim has gone to Paris. Before he departed he left orders which have just been promulgated, that all rebels captured with arms in their hands should be shot on the spot.

VIENNA, Aug. 10.—Baron Von Beust in a speech before the delegations yesterday defended his publication of the red book. All its contents contradicted the assertion that he had interfered in the affairs of the German States or exercised a pressure upon the South German Confederation. He reiterated his assertion that no alliance *existed between Austria and any European power,* but he said pointedly that France had always shown sincere friendship and entertained kindly feelings for all the people of Austria. It is questionable if Germany could help the policy of Austria, which was a domestic and not a foreign alliance.

PARIS, Aug. 10.—It is generally understood here that Baron Von Beust in alluding to the sincere friendship of France so pointedly, desired to convey the impression that he did not consider Prussia a sincere friend.

OUR SAN FRANCISCO DISPATCH.

SAN FRANCISCO, Aug 11.—The Democratic municipal convention met last night and nominated C. H. Gough for Supervisor from the 4th Ward; Reed for the 6th Ward; and John M. Martin for the 8th Ward.

At a meeting of the Democratic Legislative and Judicial Convention Gen. Belge was nominated for State Senator, and W. D. Lawyer for Police Judge.

The delegates appointed by the tax payers Union met last night, organized and appointed a committee on order of business, nominations and finance. By a resolution adopted no member of the committee or of the general committee of the tax payers Union or his partner can be nominated for any office

Train's Speech at Jacksonville.

We copy from the *Sentinel* a portion of the remarks made by George Francis Train at Jacksonville:

The early pioneers were heroes. Half a century hence you will be spoken of as the great column of progress. Speaking of 1845 to 1855 they will say—they were giants in those days. Six months on the buffalo and Indian trail, facing fever and starvation, and six days on the Pacific Railway in a Pullman Hotel car, are two distinct eras in civilization.

* * * * *

Why did you come here then? Was it for love of adventure, or had you been doing something wrong at home, and wished to escape from old friends, old sheriffs and old associates? [loud laughter] or perhaps this was it—the donation claim was the bait. You came—selected the 320 acres of land, and married a girl of thirteen to get the orther 320 [laughter]—then came the only crops that seemed to be more than perennial—the crops of babies! [Loud laughter.] Whitehead on children is the great work for these valleys. [Continued laughter.] Madame Restell must starve in this land where infanticide is murder and Restellism is unknown. [Sensation.] Where everlasting health, salmon trout, red apples, jack rabbits and volunteer crops of children are indigeneous to the soil. [Loud laughter and applause.] Well, ye came, saw and conquered the forest, seized upon every garden plot, every fertile valley, and available piece of land, and went to work. This was between 1850–55 and 1860. The mountains and hills were covered with beautiful natural grasses, and the climate was that for which Ponce de Leon so vainly sought to find his perpetual fountain of youth. [Applause.] As luck would have it, the mines were discovered, population marched in.

Money easily made is easily spent. Setting at your own doors on land given to you, your little log cabin was made fat with the clinking of miners' gold. Fifty dollars for flour, one hundred for cows, twelve for apples, and all your fruits, grains and vegetables in proportion went off at miners' prices. [That's so.] You became rich, improvident, indolent. The climate was enervating. You did not support newspapers. You paid nothing for advertising—hence, to-day the world looks on you as a northern county of California. San Francisco absorbed your products, and destroyed your individuality—as wet nurse, she still treats you as a child, putting on your clothes, feeding you with a spoon and wiping your nose with a handkerchief made in England. [Laughter.] Wheat raised at your door is sent to Portland, shipped on Holliday's steamers to San Francisco, ground up and put in California sacks and sold in Puget Sound as California flour. They pay you 20 cents for wool and sell it for 40 as California wool. They call your apples California apples. Your salmon, California salmon, and your people, "Webfoot," with a sneer. [Laughter.] They cut a 22-inch square 150 feet long piece of timber on the Columbia, send it to the Paris Exhibition and get a California prize. [That's true.] They have lived off of you, and ridicule you for allowing it. They make you feel the infamous load of repudiating our national debt, so that to-day you don't know good from evil. No matter which party, whether Democratic or Republican, Radical or Copperhead, Abolitionist or Secessionist, you are so fearfully demoralized you cannot tell right from wrong inasmuch as all of you repudiate our national debt by paying our currency. [Sensation.] Madame Restell, they took $1,000 gold in San Francisco and got $1,400 in greenbacks in New York, and sold you your clothes which you paid $2,000 in gold for, charging you 100 per cent. for exchange and commission. Still blind, you covered the hills with cattle you could not feed. Every year you planted the same grain. You killed the goose with the golden egg. The cattle ate off and stamped out the grasses. The mines gave out. The good times changed. The [illegible] with 1869. Thus the tide turned. State which time adversity set in. [illegible] of building factories, working up your own wool, you relied on two uncertain things—mines and [illegible]. You have the Mr. Gas. Tar weed, [illegible] grass and white weed. [illegible] your hands of natural [illegible]. No new seed was sown, [illegible] have where formerly a thousand [illegible]. The [illegible] on a thousand hills got [illegible]. Ten bushels only to the acre where you once got thirty, and no market for the wheat you raise. You sit over your portico in your [illegible] day, [illegible] what is the matter—will the [illegible] again? Will the railroad help us? Where is it all to end? Will Mr. Train feed out the population? I have been too well trained by the people of Oregon to deceive them, even were it yourself for me to be deceitful. I tell you [illegible] I think I'll go yourself. Know then, that no [illegible] asts will come from the East. Man can with [illegible], and capital stampede high [illegible] there. Few yet but [illegible] made and dead by [illegible] have come over the Pacific Railroad. [illegible] Expect no emigrants, no new capital. You rely on yourselves, digest these plain facts, wake up from your Rip Van Winkle sleep of 20 years. What chance has the poor [illegible]? Let us take an observation: Many of you are from Virginia, Kentucky, Missouri, Illinois and Iowa. Are you not aware that in Iowa, Missouri, Kansas and Nebraska, for $15 any man can get his thirty [illegible] an acre homestead of 160 acres? Where can he find it? Your pioneers have left the breast of the chicken long ago. [That's so and laughter.] Again, can we not buy in Iowa, Nebraska, Missouri and Kansas, the finest land in the world for $5 an acre? Is it not absurd to expect that the Eastern [illegible] will sell out his all [illegible], leave railways, markets and [illegible], pay a thousand dollars to come out [illegible] you have neither—with his household gods [illegible] thousand miles, to take your farms off your hands in the Grand Ronde, Umatilla, Willamette, Umpqua and Rogue River valleys at ten, twenty and thirty dollars an acre? [Sensation.] There is nothing so dangerous as to deceive yourselves.

They call me a humbug; my humbugging consists in telling the truth and showing the world one free man, who is not afraid of Church, State party, family, friends or God, (loud applause) but who practices what he preaches, believing that abstinence, knowledge, sobriety, virtue, morality, courage, manhood, independence, and good health, is better than quack religion, quack medicines or quack statesmanship. [Applause.]

> The religion of the Christians,
> Since the child first learned to spell,
> Is a phantom God, a local Heaven,
> A long-tailed Devil and a brimstone Hell.

[Loud laughter and great applause.]

While my religion is so living in this life, so following the beautiful character and precepts of the Saviour, so to be prepared for anything which is to come, and not love God so much I have no time to love my fellow men. [Applause.]

OREGON MUST LOOK TO CHINA.

Rely not on the East. Turn to the West. China makes all nations rich with whom she trades. There are merchants and bankers there, having a wealth of a hundred millions. China wants railroads, our railways, our machinery, our flour, our fish, our bacon, our timber, our clothing, our boots. Let these "Johns" with us go home with American boots. Start the fashion, and all the pasture lands, all the farmers, all the boot and shoe factories you could build, would not supply that vast population for a day. Think of 450,000,000 pair of boots! [Applause.] Take our felt hats—450,000,000 of hats. Take salmon in tins—450,000,000 lbs of salmon. [Take four [one barrel each] 450,000,000 barrels of flour, for which you realize $2,250,000,000, or equal to our national debt, and this would only give them a barrel apiece for an entire year! [Loud applause.] You must wake up to your great destiny. You want population. China overflows with industry and wealth.

Let your politicians stand back. Can they stop the great river of progress, the laws of emigration, the ebbing and flowing of the tide? First [illegible] the Irish driven away, then the Germans, striking the Atlantic shore. Now rushes in the Chinese on the Pacific side like a torrent. Can Senator Casserly and your one horse politicians mop back this living stream of humanity with their Tammany Hall broom? As well stop the moon's attraction or the shining of the sun. [Applause.] You must have producer and consumer living together. Capital must work alongside with labor. Let the factory go up next the farm. Remember there are 800,000,000 of bellies to be fed in Asia, and to day there are less than one million of American souls (his side the Missouri river.—[sensation.] Open wide your door, and strike for wealth through China.

A TRIP TO ASTORIA.—Since the reduction of the fare by the O. R. N. Co., between Portland and Astoria, the travel has been greatly increased, and it will prove advantageous both to the company and the traveling public. There are now four steamboats running regularly between Portland and Monticello and Oak Point, and all seem to be making a living, while the Astoria boat is doing well.

The trade on the Columbia, between Portland and Astoria, has more than doubled the last two years. The increase in the

SALMON FISHERIES

is wonderful. Four years ago there were but four or five fisheries between the mouth of the Willamette and Chinook; now there are about twenty-five. Then there were but thirty or forty men employed in the business, now there are two or three hundred. When George Francis Train went to the Dalles he secured the aid of the Indians and whites in that locality in catching four or five old, crippled, tired-out salmon, that had fought their way up the stream against a strong current, over the cascades and through rapids and rocks, until they reached the Dalles, nearly worn out. After this great exploit, Mr G. F. Train tooted his horn loudly and boasted that *he had inaugurated salmon fishing on the Columbia*. At the same time that *Mr. G F Train was bagging his half dead fish*, the fishermen down this way were catching thousands of barrels of *real live salmon*. The firm of Hapgood, Wilson & Co., and the Hume Brothers, have put up about 20,000 lbs. of canned salmon. Each of these firms employ about sixty men. The firm of John West & Co have put up about 400,000 lbs, making in all about 1,000,000 lbs. of fresh canned salmon.

The fish are cut up and canned in one and two pound cans. The canning process I do not understand, but I understand that the salmon will keep perfectly fresh for years. The cans are then put into cases containing [illegible] pounds, and is worth about nine dollars per case. There has been about 2,000 barrels of salmon put up at other [illegible] on the river.

After we passed Oak Point *we met the fresh breeze*, which soon blew all of the smoke and dust out of our faces where it had been accumulating for the last month on our perambulations through the smoky and dusty streets of your city. We found

ASTORIA

looking bright and clear, and her people happy and smiling. Yesterday the steamer *U. S. Grant*, on her return from Cape Disappointment, collided with a whale! The whale was first seen some distance ahead of the steamer, but soon disappeared beneath the waves. In a few minutes he came up directly under the boat, riding her bow and shearing her off to one side. He struck her with his fin, near midship, and further aft with his tail, as the marks of the blows in either place. Capt. Ainsworth says he was in making the blow with his tail, threw more than a barrel of water on the deck of the boat. He is said to have been very large—about sixty feet long.

A number of these monsters have been seen in the river in the past few days. They come in to feed on the myriads of small fish that now swarm in these waters.

Orders have recently reached here from Headquarters of the Lighthouse Department, abolishing the Thirteenth District, which will be merged into the Seventeenth District, as formerly. Mr. Bontwell is President of the Lighthouse Board, and is following out the economical system of retrenchment. Commodore Watson is retired from further service and placed on the retired list.

Now I go to the Summer House.

P. W. G.

OLIVER SPRINGS.—Mr. Sam. A. Moreland sends the following from the Springs, dated Aug. 8th:

DEAR OREGONIAN:

At this is the season of the year when many of our citizens are taking recreation by excursions to the Coast, Sound and other places, to recuperate from the enervating effects of the long-continued drouth and heat of summer, I think many of your readers would like to know something more than has yet been published of the locality from which I write, I have concluded to give a few lines descriptive of this place of resort, which of late has become of considerable attention. From observation it is evident that the quantity of mineral water is sufficient to meet all demands when the numerous springs are developed out, and arrangements perfected for saving the supply.

The springs are along the bed and margin of Rock creek, and are seen which from the existence of a large amount of mineral character, the precise qualities of which have not yet been ascertained by analysis, but which in all probability are very similar to the one, the analysis of which was some time since made by Professor Wilkes, and published in some of the Oregon papers. At present there is but one of these springs cleaned, and its waters prove healthful and invigorating to those using them. It affords about two gallons, per minute, of water, highly relished by many at present, and by all after using it a short time. Persons with scrofula or disease of the kidneys generally find relief from the use of the waters, while all diseases arising from an impure state of the blood are benefited when the patient drinks and bathes for a sufficient length of time. I have no doubt the time will come when this place will become a favorite resort for seekers of health throughout the valley.

The roads leading here are at this time in a rough state, but a carriage can reach the place without difficulty. It is about twenty-three miles, east southeast from Corvallis City, and about thirty-two from

Here of people are here constantly, and all with the exception of [illegible] who came here in quest of health, [illegible] seem to be [illegible] some of them very much [illegible] E. S. Cook and L. F. Grover, and also Wm. [illegible] and their families have spent a portion of the season here, and appear to be well pleased with the place. I am connecting with the place. The last mentioned is still here, camped out, and appears to like this sort of life well.

A Mr. Wilhoit, is erecting a large [illegible] building and at no distant day will be able to accommodate all who may visit the Saratoga of Oregon with all the conveniences and luxuries of a first class hotel. At this time the most of those coming here have to [illegible] accommodations for themselves, and [illegible] of this place above the sea level has not been ascertained, but it is sufficiently high for the atmosphere to be much purer than among the valley of the Willamette.

The number of people here does not exceed one hundred, but it is expected that six thousand have visited the place since the beginning of summer. Next season it is thought that the number of visitors will be much greater, and that a great portion of those who have heretofore gone to other places will resort hither for health and recreation.

Those going away from here in bottles or otherwise has very little of the taste of that drank immediately from the spring.

FOR CALIFORNIA.—The steamship *Orizimba* left at six o'clock last evening with the following passengers: H Moscowitz, Dr W L Maley, E [illegible], Mrs Thomas Johnson and infant, Mrs Henderson, W [illegible] Sawyer, wife and two children, Major W [illegible], *James Washburn*, J Mayer, F M Bates, W [illegible], Mrs G W Smiley, child and nurse, Rev S G Irwin, Miss Patrick, Chas Espenshied, A Beck and daughter, [illegible] McGregor, Dr Storror, Rev Dr [illegible], Mrs G H Janes and two daughters, Mrs E [illegible] and infant, Ira Shattuck, Mrs Thatcher, Miss [illegible], Mrs Frederick and child, Nesbet Cole and two children, [illegible] Stores, U Flanel, Simon Harris, C T Wilkinson, Miss Mary Patrick, Miss Eliza Patrick, Miss [illegible] Cole, Mr Jacobs, S Ackerman, P Selling, J Koshland, [illegible] L Baum and son, S Blumauer, John Smith, [illegible] Brewer, Lewis Blumauer, Miss Lizzie Irvine, Miss [illegible] Allen, Miss Emily Daupler, Mrs E J Kane, Miss [illegible] Fox, Miss Emma Cerf, Mrs McMinn and boy, [illegible] Brewer, Miss Slocum, Rev E Barrie, W Crosby, A [illegible] Burke and wife, J C Dorcy, Mr Levy, F A O Payne, [illegible] Cox, Rev Dr Thomas, A J Kane, John S [illegible], Rev O Gibson, C Barrie, Chas Little, and 13 in the steerage.

CONFERENCE APPOINTMENTS.—The following list of appointments made by the Methodist Conference for the Salem and Portland Districts is furnished the Daily C[illegible] by Bishop Kingsley:

Salem District—I N. Doane, Presiding Elder; Salem, Rev. C. C. Stratton; South Salem, Rev. J. H. Moore; [illegible]; Jefferson, Rev. N. A. Starr; Lebanon and Scio, Rev. E. A. Judkins; Albany, Rev. H. C. [illegible]; Brownsville, Rev. T. A. Woods; Spencer Butte, Rev. J. S. Douglas; Eugene City, Rev. P. M. Starr; [illegible] Gold, Rev. J. M. Adams; Mourpe, Rev. J. W. Miller; Sweet Vista, Rev. Wm. Chapman; Yaquina, Rev. J. James.

Portland District—Rev. J. F. Devore, Presiding Elder; Portland, Rev. Wm. Roberts; Oregon City, Rev. C. W. Reed; East and South Portland, A. C. Fairchild; Milwaukie, Rev. W. S. Cooper; East Tualatin, Rev. J. Pillar; Hillsboro, Rev. J. W. Turner; Dayton, Rev. J. Leland; Lafayette, Rev. Joseph Hoberg; Yamhill, Rev. G. C. Rice; Parker, Rev. D. L. Stambling; Rock Creek, Rev. J. Risor; Cedar Creek, Rev. G. W. Roork; Tillamook, Rev. John S. M. Cain; Editor of the *Advocate*, I [illegible].

DROWNED.—James Stephens, a son of James B. Stephens, of East Portland, was accidentally drowned in the Willamette river about 11 o'clock Wednesday night. He and another young man had been in the city during the day, and starting to cross the river in a skiff, they got lost in the fog, and after rowing some time, finally came up at the engine house of the Portland Water Company, which stands on the bank of the river nearly opposite the Oregon Iron Works. From this point they thought they were making toward Mr. Stephens' house on the east side of the river. They had proceeded but a short distance when young Stephens arose from his seat and losing his balance, fell backward into the river. In the darkness his companion did not again see him, though he thinks he heard him struggling in the water. The alarm was immediately given, but although several parties were engaged in the search for the body, it was not found till about 11 A. M. yesterday. The remains were taken to East Portland for interment. No inquest was held, the Coroner finding no circumstances connected with the death which seemed to require one.

AT LAST.—The *Commercial Herald*, of San Francisco, of August 6th, pays a deserved compliment to Oregon flour. It is quite unlike the usual tone of the California press. The quotations of the leading Oregon brands are 12½ per barrel higher than those of the local mills, which fact may have something to do with the concessions to Oregon, that are now occasionally seen in the California papers. The fact that Oregon flour leads the top brands in New York, has also helped to make California less arrogant in their pretensions, and more just in their treatment of us. The *Herald* says: "Oregon flour is forcing itself into much favor with local customers even at the expense of driving out one or more agents of interior mills, that heretofore have sustained a local habitation among us, but are now forced to retire to Stockton, whilst the hope of securing increased patronage from the interior."

LECTURE TO-NIGHT.—Maj. Adams' lecture on "The True Progress of Mankind," will be delivered at the Congregational Church this evening. Turn out and hear him.

WHEELBARROW RAFFLE.—Only a few more chances left in that splendid Pickering Velocipede, which is to be raffled off soon at Ned Wicks' Sample Rooms.

ORO FINO THEATER.—We learn direct from the proprietors that Messrs Carter & Phelps have taken a lease of Oro Fino Theater. We met Mr Carter, yesterday, who informed us that it is the intention of the lessees to open some time next month with a company of the best artists to be obtained on the coast, and that should the public patronage be sufficient, they will make the theater a permanent institution. We have no specific knowledge of the dramatic ability of either Mr or Mrs Carter; but Mrs Fanny Morgan Phelps, who will become of the company as an actress of celebrity and formerly a favorite with the people of Portland. Since leaving here, she has played very successful star engagements in all of the principal cities of the United States. While we are ready to welcome these news comers, we forewarn them that if they would fully occupy the place in public estimation lately held by Mr. and Mrs. Bates and company, they must engage no second rate talent.

PORTLAND YACHT CLUB.—At a meeting of the club last evening, it was decided to hold the next and closing race of the season on Thursday, August 26th, when several new boats, which have lately been built, will appear. There will be prizes offered as usual, and it is the intention to make this regatta as interesting as any which have heretofore taken place. It met more than [illegible] to see so much interest taken by this club for the advancement and promotion of yachting, and hope their efforts may meet with the encouragement which they deserve from our citizens. As the Salem *Unionist* observes, it gives our city a metropolitan aspect by supporting such organizations as this. We have the finest river of the great Northwest here at our door, and sailing is one of the finest amusements in the world, and we are only surprised that this thing has not been started before this season, and now that it is started, let us encourage it and keep it going.

HAS LEFT US.—In consequence of the lease of Oro Fino Theater to Messrs. Carter & Phelps, Mr. F. M. Bates has left us and gone to San Francisco. He had been staying here through the summer, expecting to reopen the Theater in September, and Mrs Bates' visit to San Francisco was made for the purpose of engaging a company. The new arrangement was a surprise and disappointment to Mr Bates, but it was beyond his control, and he had nothing for it but to yield and reluctantly leave us. We trust that he has carried away some pleasant memories of Portland and her people. We can assure him and his estimable wife that their departure occasions sincere regret among a very wide circle of attached friends, and that no one in their profession ever left us followed by better wishes for future success than they.

PERSONAL.—We had the pleasure, last evening, of a call from Mr. John Nestor, long a leading architect in this city, who has been absent at the East about seven months. He has established himself in business at New York, and is here now for the purpose of disposing of some property he owns in this city and at East Portland. We are glad to learn from him that he is succeeding beyond his most sanguine expectations with his patent combined carpenter's tool, a full description of which we gave last year.

SUCCESS.—Captain Ankeny, who has rather taken the lead in the 1st ward, in the Immigration-aid-movement, thinks he can turn over the books to-day to the Secretary with two hundred subscribers of ten dollars each, and that had his time been fully at his command to devote to that special business, he could have easily procured two hundred and fifty. As it is, this committee, as well as the others in this city, has met with a success as gratifying as creditable to the men who have the work in charge.

OUR EXPORTS.—The San Francisco *Commercial Herald* of the 6th says: The receipts of certain articles of Oregon produce from January 1st to date, have been as follows: Flour, qr sks 249,600; wheat, sks 19,067; oats, sks 49,300; barley, sks 24; salmon, bbls 951, hf bbls 529, cs 9,954, pkgs 308; bacon, pkgs 4,117; beef, bbls 453; butter, pkgs 408; Cheese, pkgs 12; hams, pkgs 286; lard, pkgs 1,561; pork, bbls 835; dried apples, pkgs, 3,408; pig iron, tons 726.

THE NATIONAL BANK.—We are informed that Messrs. Starr, of this city, have sold their stock in the National Bank of this city to a well known mercantile firm, and that the Presidency of the bank has been conferred upon a new man. The change will no doubt be officially announced in due time.

DR. WYTHE.—It is positively announced that Dr. Wythe who has been laboring in Oregon for several years in the varied capacities for which his scientific attainments and general learning fitted him, will go to California very soon. Oregon will part with him with regret.

"BIG SHOW" COMING.—A dispatch from San Francisco dated yesterday, addressed to the press of this city, runs as follows: "The Great Show, Menagerie and den of performing African lions and Mammoth Circus troupe has started overland for your town."

FALLING IN PRICE OF EGGS.—A dispatch to a private party in this city states that eggs have fallen at San Francisco, 10 cents per dozen. A large invoice expected to arrive from Chicago has aided to produce the decline.

CHANGE IN COMMAND.—It is stated that Capt. J. N. Fisher has resigned the position of Captain of the steamer *Wenat*, and that *Capt. Billy Smith will take the place*.

USE KANT'S IMPERIAL CONDENSED SOAP. It washes without rubbing. For sale by Allen & Lewis, Corbitt & McCleay, R. G. Sneath and all retailers.

RE-OPENED.—The Federal Land Office at Los Angeles, Cal., has been re-established, and a new Register and Receiver appointed. The District embraces San Diego and Los Angeles, and nearly all of San Bernardino and the northern part of San Barbara counties.

NOTICE.

WE TAKE PLEASURE IN CALLING the attention of dealers to a visit the Patented Improvement in Electro-Plating Spoons and Forks, by which those parts most exposed to wear receive an

EXTRA COAT OF SILVER!

THREE TIMES THE USUAL THICKNESS,

viz: on the back of the handle, bowl of the spoon and points of bowls [illegible] *of the handle and breast and points of Knives* and forks, as illustrated in cut.

This mode of Electro-Plating greatly supercedes the old way of plating. The great advantage will be readily seen, as spoons and forks always wear through on these exposed points, while the plate is yet good on other parts of the article. This new process will add THREE TIMES TO THE DURABILITY of goods so plated.

Knives, forks and spoons stamped "1847 ROGERS BROTHERS A1 XII," are Electro Plated by the new Patented Process.

We have now been before the public since 1852, manufacturing ELECTRO-PLATED GOODS, which have stood the most severe tests of wear in hotels, steamers and private families, and have given universal satisfaction, supplying, as it does, all of the advantages of silver in durability and beauty. *We wish to call particular attention to the* hardness and firmness of our White Metal, which exceeds anything of the kind made in this country. All goods plated on this metal bear our trade mark, and the plating is warranted THREE TIMES THE USUAL THICKNESS.

FRANCIS G. SMITH, M. D., Medical Director.
J. EWING MEARS, M. D., Assistant Medical Director.

THE ATTENTION OF PERSONS CONTEMPLATing Insuring their lives, or increasing the amount of insurance they already have, is called to the special advantages offered by the NATIONAL LIFE INSURANCE COMPANY.

NO MONEY SENT OUT OF THE STATE.

ALL PREMIUMS RECEIVED INVESTED IN THE STATE.

THE ADVANTAGES OFFERED ARE:

It is a National Company, chartered by special Act of Congress, 1868.
It has a Paid-up Capital of $1,000,000.
It offers Low Rates of Premium.
It furnishes Larger Insurance than other Companies for the same money.
It is Definite and Certain in its Terms.
It is a Home Company in every locality.
Its Policies are Exempt from Attachment.
There are no Unnecessary Restrictions in the Policies.
Every Policy is Non-forfeitable.
Policies may be taken which Pay to the Insured their Full Amount and Return all the Premiums, so that the Insurance costs Only the Interest on the Annual Payments.
Policies may be taken that will Pay to the Insured, after a certain number of years, During Life, an Annual Income of One-Tenth the amount named in the Policy.
No Extra Rate is charged for Risks upon the Lives of Females.
Insures Not to Pay Dividends, but at so low a cost that dividends will be impossible.

Its Policies are Negotiable.

By the Charter of the Company, certificates of obligations will be issued, agreeing to purchase its Policies at their value which, when accompanied by the Policy duly assigned or transferred, are negotiable, and may be used as collateral security, in making loans from the Company or from other parties.

The Hon. Jos. E. Sandford, Insurance Commissioner of Massachusetts, in his Report for 1868, speaking of Dividends in Life Insurance Companies, says: "The sooner such guarantees cease to be made, and such expectations created, the sooner Life Insurance will come to rest on its true motive, and men insure their lives for security, and not for dividends. The best and most popular companies will then be those that promise only equity, and render all that they promise, and furnish the best security, with the most upright and judicious management."

"By the Stock plan, the full cash effect of the Premium is immediately secured to the Insured, the Company taking ALL the risk. By the Mutual plan, the *full value* in Insurance of the Premium paid, is not secured to the Policy-holder, who takes a portion of the risk himself."

A TRIP TO ASTORIA.—Since the reduction of the fare by the O. S. N. Co., between Portland and Astoria, the travel has been greatly increased, and it will prove advantageous both to the company and the traveling public. There are now four steamboats running regularly between Portland and Monticello and Oak Point, and all seem to be making a living, while the Astoria boat is doing well.

The trade on the Columbia, between Portland and Astoria, has more than doubled the last two years. The increase in the

SALMON FISHERIES

is wonderful. Four years ago there were but four or five fisheries between the mouth of the Willamette and Chinook; now there about twenty-five. Then there were but thirty or forty men employed in the business; now there are two or three hundred. When George Francis Train went to the Dalles he secured the aid of the Indians and whites in that *locality in catching four or five* old, crippled, tired-out salmon, that had fought their way up the stream against a strong current, over the cascades and through rapids and rocks, until they reached the Dalles, nearly worn out. After this great exploit, Mr. G. F. Train tooted his horn loudly, and boasted that *he* had *caught salmon fishing on the Columbia*. At the same time that Mr. G. F. Train was bagging his half-dead fish, the fishermen down this way were catching thousands of *real live salmon*. The firm of Hapgood, Hume & Co., and *the Hume Brothers, have put up* about 60,000 lbs. of canned salmon. Each of these firms employ about sixty men. The firm of John West & Co. have put up about 800,000 lbs., making in all about 1,000,000 lbs. of fresh canned salmon.

The fish are cut up and canned in one and two pound cans. The only process I do not understand, but I am told that the salmon will keep perfectly fresh for years. The cans are then put into cases containing forty cans, and is worth about nine dollars per case. There has been about 2,000 barrels of salmon put up at other fisheries on the river.

Oak Point we met the fresh breeze, which soon blew all of the smoke and dust out of our eyes where it had been accumulating for the last month in consequence of ambulations through the smoky and dusty streets of your city. We found

ASTORIA

looking bright and clear, and her people happy and healthy. Yesterday the *steamer U. S. Grant, on her return* from Cape Disappointment, collided with a whale! The whale was first seen some distance ahead of the boat, but soon disappeared beneath the waves. In a few minutes he came up directly under the boat, riding her fast and shearing her off to one side. He struck her with his fin, near midship, and further aft with his tail, the marks of the blows in either place. Capt. [illegible] suppose that in making the blow with his tail, he must have taken a barrel of water on the deck of the boat. He is said to have been very large—about sixty feet long.

A number of these monsters have been seen in the river the past few days. They come in to feed upon the myriads of small fish that now swarm in these waters.

Orders have recently reached here from Headquarters of the Light Department, abolishing the Thirteenth Light District, which will be merged into the Seventeenth District, as heretofore. Mr. Bontwell is President of the Light House Board, and is following out the economical system of retrenchment. Commodore Watson is retiring from further service and placed on the retired list.

Now I go to the Summer House.

P. W. G.

SODA SPRINGS.—Mr. Sam. A. Moreland sends us the following from the Springs, dated Aug. 8th:

OREGONIAN:

This is the season of the year when many of our people are leaving residence, by excursions to the Coast, Springs and other places, to recuperate from the enervating effects of the long-continued drouth and heat of summer. Many of your readers would like to know more than has yet been published of the locality which I write, I have concluded to give a few lines describing this place of resort, which, of late has become favorable attention. From observation it is evident the quantity of mineral water is sufficient for all reasonable demands when the numerous springs are bored out, and arrangements perfected for saving the entire supply.

Springs are seen along the bed and margin of Rock Creek, which from the existence of large quantities of mineral character, the precise qualities of which have not yet been ascertained by analysis, but which in all probability are very similar to the one, the analysis of which was some time since made by Professor Hayes, and published in some of the Oregon papers. At present there is but one of these springs cleaned, and its waters are very pleasant, healthful and invigorating to drink from them. It affords about two gallons, per minute, of cool water, highly relished by many at once, and they all after using it a short time. Persons afflicted with [illegible] or [illegible] of the kidneys generally find relief from the use of these waters, while all diseases arising from an impure state of the blood are materially alleviated when the patient drinks freely for a [illegible] length of time. I have no doubt the time will come when this place will become a favorite resort for seekers of health throughout the [illegible].

The roads [illegible] here are at this time in a rough state, but still one can reach this place without much difficulty. It is about twenty-three miles, east from Corvallis City, and about thirty-two from Albany.

There are here [illegible] quantity, and all with [illegible]. There convey[illegible], who came here in quest of health, [illegible] as I learned, some of them very [illegible]. E. N. Cook and L. F. Grover and also [illegible] and their families have spent a portion of [illegible] here, and appear to be well pleased with [illegible] ka with the place. The last [illegible] still here, [illegible]ped out, and appears to enjoy this part of life well.

The [illegible], Mr. Wilhelm, is now [illegible] large building and at no distant day will be able to accommodate all who may visit the Saratoga of Oregon with all the conveniences and luxuries of a first class hotel. At this time the most of those [illegible] here are [illegible] accommodations for [illegible], and [illegible] of this place above the sea level has not been [illegible], but it is [illegible] thought great for the attitude to be much purer than along the valley of the [illegible].

[illegible] of [illegible] here does not exceed one [illegible] that six thousand have visited this place since the beginning of summer. Next season [illegible] and that a great portion of those who [illegible] to come to other places will resort hither for [illegible].

The [illegible] away from here in bottles or otherwise has very little of the taste of that drank immediately from the [illegible].

FOR CALIFORNIA.—The steamship *Oriflamme* left at 6 o'clock last evening with the following passengers: H Moscowitz, Dr W L Maley, R [illegible], Mrs Thorney Johnson and infant, Mrs Henderson Vanschuyver, wife and two children, Major W [illegible], James Washburn, J Mayer, F M Bates, W [illegible], Mrs G W Smiley, child and nurse, Rev S G Irwin, Wm Patrick, Chas Espenshied, A Beck and daughter, [illegible] T McGregor, Dr Stratton, Rev Dr [illegible], Mrs G H Jans and two daughters, Mrs E [illegible] and infant, Ira Shattuck, Mrs Thatcher, Miss [illegible], Mrs Frederick and child, Nathan Cole and two children, [illegible] Howard, C Fisher, Simon Harris, O T Wilkinson, Miss Mary Patrick, Miss Eliza Patrick, Miss [illegible] Cole, Mr Jacobs, S Ackerman, P Selling, J Koshland, L Baum and son, S Blumauer, John Smith, [illegible], Lewis Blumauer, Miss Lewis Irvine, Miss [illegible]ld, Miss Emily Dauphey, Mrs E J Kane, [illegible] Fox, Miss Emma Cerf, Mrs McKiran and boy, [illegible]ar, Miss Slocum, Rev E Barris, W Crosby, A [illegible] and wife, J C Dorey, Mr Levy, F A C Payne, [illegible], Rev Dr Thomas, A J Kane, John S [illegible], Rev O Gibson, C Barris, Chas Little, and 13 in the steerage.

CONFERENCE APPOINTMENTS.—The following appointments made by the Methodist Conference for the Salem and Portland Districts is furnished the [illegible] by Bishop Kingsley:

Salem District—I N. Deane, Presiding Elder; Salem, [illegible] G. C. Stratton; South Salem, Rev. J. H. Koontz; [illegible]; Jefferson, Rev. N. A. Starr; Lebanon, [illegible]; Rev. E. A. Portland District—Rev. J. F. Devore, Presiding Elder; Portland, Rev. Wm. Roberts; Oregon City, Rev. C. W. Reed; East and South Portland, A. C. Fairchild; Milwaukie, Rev. W. S. Cooper; East Tualatin, Rev. J. [illegible]; Hillsboro, Rev. J. W. Turner; Dayton, Rev. J. [illegible]; Lafayette, Rev. Joseph Hoberg; Yamhill, Rev. G. C. Rose; Forest Grove, Rev. D. L. Spaulding; Rock Creek, Rev. J. Hoer; Cedar Creek, Rev. G. W. Roork; Tillamook, Rev. John S. M. Cain; Editor of the *Advocate*, I [illegible].

DROWNED.—James Stephens, a son of James B. Stephens of East Portland, was accidentally drowned in the Willamette river about 11 o'clock Wednesday night. He and another young man had been in this city during the day. Starting to cross the river in a skiff, they got lost in the fog, and after rowing some time, finally came up at the engine house of the Portland Water Co., which *stands on the bank* of the river nearly opposite the Oregon Iron Works. From this point they started again, heading toward Mr. Stephens' house on the east side of the river. They had proceeded but a short distance when young Stephens arose from his seat and losing his balance, fell backward into the river. In the darkness his companion did not again see him, though he thinks he heard him struggling in the water. The alarm was immediately given, but although several persons were engaged in the search for the body, it was not found till about 11 A. M. *yesterday*. The remains were taken to East Portland for interment. No inquest was held, the Coroner finding no circumstances connected with the death which seemed to require one.

AT LAST.—The *Commercial Herald*, of San Francisco, of Aug. 6th, pays a deserved compliment to Oregon flour. It is quite unlike the usual tone of the California press. The quotations of the leading Oregon brands are $2 per barrel higher than those of the local mills. This fact may have something to do with the concessions to Oregon, that are now occasionally seen in the San Francisco papers. The fact that Oregon flour leads the market in New York, has also helped to make California millers less arrogant in their pretensions, and more just in their treatment of us. The *Herald* says: "Oregon flour is forcing itself into much favor with local customers even at the expense of driving out one or more agents of interior mills, that heretofore have sustained a local habitation among us, *but are now forced to retire to Stockton*, which the hope of securing increased patronage from the interior."

LECTURE TO-NIGHT.—Maj. Adams' lecture on "The Tree Plant[illegible] of Mankind," will be delivered at the Congregational Church this evening. Turn out and hear him.

WHO WANTS A RAFFLE.—Only a few more chances left in that splendid Pickering Velocipede, which is to be raffled off soon at Ned Wicks' Sample Rooms.

ORO FINO THEATER.—We learn direct from the proprietors that Messrs. Carter & Phelps have taken a lease of Oro Fino Theater. We met Mr. Carter, yesterday, who informed us that it is the intention of the lessees to open some time next month with a company of the best artists to be obtained on the coast, and that should the public patronage be sufficient, they will make the theater a permanent institution. We have no specific knowledge of the dramatic ability of either Mr. or Mrs Carter, but Mrs. Fanny Morgan Phelps, who will be one of the company, is an actress of celebrity and formerly a favorite with the people of Portland. Since leaving here, she has played very successful star engagements in all of the principal cities of the United States. While we are ready to welcome these newscomers, we forwarn them that if they would fully occupy the place in public estimation lately held by Mr. and Mrs. Bates and company, they must engage no second rate talent.

PORTLAND YACHT CLUB.—At a meeting of the club last evening, it was decided to fix the next and closing race of the season on Thursday, August 26th, when several new boats, which have lately been built, will appear. There will be prizes offered, as usual, and it is the intention to make this regatta as interesting as any which have heretofore taken place, if not more so. We are glad to see so much interest taken by this club for the advancement and promotion of yachting, and hope their efforts may meet with the encouragement which they deserve from our citizens. As the Salem *Unionist* observes, it gives our city a metropolitan aspect by supporting such organizations as this. We have the finest river of the great Northwest here at our door, and sailing is one of the finest amusements in the world, and we are only surprised that this thing has not been started before this season, and now that it is started, let us encourage it and keep it going.

HAS LEFT US.—In consequence of the lease of Oro Fino Theater to Messrs. Carter & Phelps, Mr. F. M. Bates has left us and gone to San Francisco. He had been staying here through the summer, expecting to reopen the Theater in September, and Mrs. Bates' visit to San Francisco was made for the purpose of engaging a company. The new arrangement was a surprise and disappointment to Mr. Bates, but it was beyond his control, and he had nothing for it but to yield and reluctantly leave us. We trust that he has carried away some pleasant memories of Portland and her people. We can assure him and his estimable wife that their departure occasions sincere regret among a very wide circle of attached friends, and that no one in their profession ever left us followed by better wishes for future success than they.

PERSONAL.—We had the pleasure, last evening, of a call from Mr. John Nestor, long a leading architect in this city, who has been absent at the East about seven months. He has established himself in business at New York, and is here now for the purpose of disposing of some property he owns in this city and at East Portland. We are glad to learn from him that he is succeeding beyond his most sanguine expectations with his patent combined carpenter's tool, a full description of which we gave last year.

SUCCESS.—Captain Ankeny, who has rather taken the lead in the 1st ward, in the Immigration-aid-movement, thinks he can turn over the books to-day to the Secretary with two hundred subscribers of ten dollars each, and that had his time been fully at his command to devote to that special business, he could have easily procured two hundred and fifty. As it is, this committee, as well as the others in this city, has met with a success as gratifying as creditable to the men who have the work in charge.

OUR EXPORTS.—The San Francisco *Commercial Herald* of the 6th says: The receipts of certain articles of Oregon produce from January 1st to date, have been as follows: Flour, qr sks 249,600; wheat, sks 19,067; oats, sks 49,300; barley, sks 24; salmon, bbls 951, hf bbls 529, cs 9,054, pkgs 308, bacon, pkgs 4,117; beef, bbls 453; butter, pkgs 498; Cheese, pkgs 12; hams, pkgs 288; lard, pkgs 1,561; pork, bbls 835; dried apples, pkgs, 3,408; pig iron, tons 725.

THE NATIONAL BANK.—We are informed that Messrs. Starr, of this city, have sold their stock in the National Bank of this city to a well known mercantile firm, and that the Presidency of the bank has been conferred upon a new man. The change will no doubt be officially announced in due time.

DR. WYTHE.—It is positively announced that Dr. Wythe who has been laboring in Oregon for several years in the varied capacities for which his scientific attainments and general learning fitted him, will go to California very soon. Oregon will part with him with regret.

"BIG SHOW" COMING.—A dispatch from San Francisco *dated yesterday, addressed to the press of this city*, runs as follows: "The Great Show, Menagerie and den of performing African lions and Mammoth Circus troupe has started overland for your town."

FALLING IN PRICE OF EGGS.—A dispatch to a private party in this city states that eggs have fallen at San Francisco, 10 cents per dozen. A large invoice expected to arrive from Chicago has aided to produce the decline.

CHANGE IN COMMAND.—It is stated that Capt. J. N. Fisher has resigned the position of Captain of the steamer *Wenat*, and that Capt. Billy Smith will take the place.

Use KANE'S IMPERIAL CONDENSED SOAP. It washes without rubbing. For sale by Allen & Lewis, Corbitt & McCleay, R. G. Sneath and all retailers.

A man has appeared in a country district of Poland, who pretends to be the Saviour, come to save the world again. He carries out the imitation, even to the twelve apostles. He has gained considerable popularity, and has meddled with politics to such an extent as to incur the hostility of the authorities.

RE-OPENED.—The Federal Land Office at Los Angeles, Cal., has been re-established, and a new Register and Receiver appointed. The District embraces San Diego and Los Angeles, and nearly all of San Bernardino and the northern part of San Barbara counties.

NOTICE.

WE TAKE PLEASURE IN CALLING the attention of dealers to a valuable Patented Improvement in Electro-Plating Spoons and Forks, by which those parts most exposed to wear receive an

EXTRA COAT OF SILVER!

THREE TIMES THE USUAL THICKNESS.

This on the back of the handle, back of the bowl and points of the shells, as in the case of the handle and breast and points of tines of forks, as illustrated in cut.

This mode of Electro-Plating greatly supercedes the old way of plating. The great advantage will be readily seen, as spoons and forks always wear through on these exposed points, while the plate is yet good on other parts of the article. This new process will add THREE TIMES TO THE DURABILITY of goods so plated.

"Knives, forks and spoons stamped "1847 ROGERS BROTHERS AI XII," are Electro Plated by the new Patented Process.

We have now been before the public since 1852, manufacturing ELECTRO-PLATED GOODS, which have stood the most severe tests of wear in hotels, steamers and private families, and have given universal satisfaction, supplying, as it does, all of the advantages of silver in durability and beauty. We wish to call particular attention to the hardness and firmness of our White Metal, which exceeds anything of the kind made in this country. All goods plated on this metal bear our trade mark, and the plating is warranted THREE TIMES THE USUAL THICKNESS.

THE ATTENTION OF PERSONS CONTEMPLATing Insuring their lives, or increasing the amount of insurance they already have, is called to the special advantages offered by the NATIONAL LIFE INSURANCE COMPANY.

NO MONEY SENT OUT OF THE STATE.

ALL PREMIUMS RECEIVED INVESTED IN THE STATE.

THE ADVANTAGES OFFERED ARE:

It is a National Company, chartered by special Act of Congress, 1868.
It has a Paid-up Capital of $1,000,000.
It offers Low Rates of Premium.
It furnishes Larger Insurance than other Companies for the same money.
It is Definite and Certain in its Terms.
It is a Home Company in every locality.
Its Policies are Exempt from Attachment.
There are no Unnecessary Restrictions in the Policies.
Every Policy is Non-forfeitable.
Policies may be taken which Pay to the Insured their Full Amount and Return all the Premiums, so that the Insurance costs Only the Interest on the Annual Payments.
Policies may be taken that *will* Pay to the Insured, after a certain number of years, During Life, an Annual Income of One-Tenth the amount named in the Policy.
No Extra Rate is charged for Risks upon the Lives of Females.
Insures Not to Pay Dividends, but at so low a cost that dividends will be impossible.

Its Policies are Negotiable.

By the Charter of the Company, certificates of obligations will be issued, agreeing to purchase its Policies at their value which, when accompanied by the Policy duly assigned or transferred, are negotiable, and may be used as collateral security, in making loans from the Company or from other parties.

The Hon. Jos. K. Sandford, Insurance Commissioner of Massachusetts, in his Report for 1868, speaking of Dividends in Life Insurance Companies, says: "The sooner such guarantees cease to be made, and such expectations created, the sooner Life Insurance will come to rest on its true motive, and men insure their lives for security, and not for dividends. The best and most popular companies will then be those that promise only equity, and render all that they promise, and furnish the best security, with the most upright and judicious management."

"By the Stock plan, the full cash effect of the Premium is immediately secured to the Insured, the Company taking ALL the risk. By the Mutual plan, the full value in Insurance of the Premium paid, is not secured to the Policy-holder, who takes a portion of the risk himself."

Restrictions upon Business.

Under the workings of the revenue laws there are restrictions upon the business of Portland and the smaller cities which ought to be and could be removed by judicious legislation. Portland labors under the double disadvantage of not being a port of entry and of not having the facilities under the laws for the transaction of certain branches of business which are afforded in San Francisco.

For some time past Wasserman & Co., of this city, have had a warehouse for storing tobacco in bond. They have thus been enabled to draw out tobacco according to the demands of their business, paying the taxes upon it as drawn out. But since the last change was made in the revenue law an order has come for the discontinuance of this warehouse. The condition of affairs being reported to the department, a subsequent order was issued to continue the warehouse for the space of sixty days from the 13th July. When that period expires the owners of the tobacco will be compelled to take it out and pay the whole tax on it at once, or send it to a bonded warehouse in San Francisco. The tax will amount to the original cost of the tobacco, and the necessity of paying the whole at once upon a large stock is a serious hardship. On this principle it will require a great deal more money to do this kind of business here than in San Francisco, where bonded warehouses are established and where the goods can be drawn out in quantities to meet the actual demand. Such a policy cripples the business of Portland and builds up that of San Francisco. If a tobacco dealer here who desires to purchase in New York and have the advantage of direct shipments to Oregon invests fifty thousand dollars in tobacco in New York, he is compelled to pay at the same time fifty thousand dollars for taxes upon it when he takes it out of the warehouses there to ship it to Oregon. But the San Francisco merchant can buy the same stock in New York, store it in his bonded warehouse at San Francisco and pay taxes upon it as he draws it out on making sales. This gives San Francisco a great advantage over Portland in an important line of business.

Application was recently made at the Treasury Department to establish an export bonded warehouse at Portland. The application was denied because Portland is not a port of entry and no bonded warehouses can be established except at such port. We are therefore practically cut off from a line of trade which might be a source of profit to the State. Now the greater part of the business of Oregon is done through Portland, and this place should be made a port of entry. We have many advantages which we do not now enjoy, and many here would be free from many burdens which now trammel it and which, by embarking Oregon, enure to the benefit of San Francisco.

Governor Blair.

Governor Blair has begun to imitate the not very successful example of Horatio Seymour, and resolutely declining the nomination of his party for Governor of Ohio, "Young Frank" has at last yielded to the importunities and consented to take a part in that hopeless political lottery. Pendleton has not been a candidate since 1866, when Eggleston beat him for Governor by 3,000 in the First District of Ohio. He will undoubtedly get the vote of his party for Governor, but will not secure the support of any man of uncompromising Union principles. His secession record and his dishonorable financial policy are too well remembered. Pendleton is the Democratic statesman who stood up in Congress on the 18th January, 1861, and said: "If you find conciliation impracticable, I beg you, gentlemen, to let the erring States depart in peace; let them establish their government and empire, and work out their destiny according to the wisdom which God has given them." If Pendleton is elected now, as he is morally certain to be, his political career will be forever ended. He can bid farewell to the hope of the nomination for the Presidency in 1872. It is claimed by his admirers that he is very strong in his State, but his success heretofore when a candidate before the people has not been such as to justify this assumption. On three occasions he has run just about even with the other candidates of his party. He has more admirers away from home than in his own State.

William H. Seward.

It is not known precisely when the Seward party will reach Portland, but it is probable that they will be here ere long. What preparations have been made or are making for the reception of Mr. Seward we are not informed, but trust that no effort will be spared to give him an appropriate greeting. He has been formally invited to Portland by the city authorities, and he should be entertained in a becoming manner. Portland cannot do herself more credit than by extending hearty welcome to a man who has done so much to render illustrious and honorable the American name. If suitable preparation has not yet been made for his reception it is important that the matter be not delayed too long, thereby requiring hurried and imperfect action. Let Portland not forget what is due both to her expected visitor and to her own reputation.

The West.

During the month of July, the police of San Francisco made 1,220 arrests. The total number of arrests made during the year ending on the 30th of last June, was 13,056.

The Utah *Daily Reporter* of the 1st says that the Chinese thrown out of employment by the completion of the Central Pacific Railroad are engaged to work on the Memphis and Selma road in Tennessee.

A petition to the Secretary of War, asking that a force of five hundred United States cavalry be stationed at White Pine for the protection of settlers and miners, is being generally signed by the leading business men of San Francisco.

Thirty-nine suicides in a single year! Eleven murders! Eighty-two fatal accidents! One hundred and thirty-two persons yearly dying in despair, or sudden calamity, in San Francisco. Such is the brief story of the County Coroner.

White Pine dispatches of the 5th inst. state that on the night before several parties of the Miners' Union were out and drove night shifts out of the shafts where they were working for $4. They fired several shots down one shaft. One miner, who was being chased out of the shaft in darkness, fell into a cut, broke his thigh and was otherwise bruised. Leopard, the President, and several other members of the Union were arrested early that morning and sent to the county jail at Hamilton. The books of the Union were captured, showing the names of the members. It is reported that the $4 men, who number 500, have formed a league to oppose the action of the Union.

ED. OREGONIAN:

I desire to say a few words in relation to *direct* trade. A year and a half ago, I went to New York fully convinced that the time had come for Oregon to assume her place among the States, as one having an important commerce. Keeping that conviction constantly alive, in the face of two monster lines of opposition, I have succeeded in *establishing* a line of sail vessels between New York city and Portland, Oregon.

The opposition alluded to is, first, a direct effort on the part of California interests to crush the line. Second, an opposition less direct, but more certain in its results, at the hands of our Oregon merchants. While some have come forward with a will and determination to support us, others, *many others*, have stood by quietly looking on, saying nothing against us, but withholding the very support which we grievously need, and which they could readily give us. This kind of opposition is the most difficult to contend against, for it comes from a source whence we expect assistance. At present it requires the utmost diligence on our part to load a vessel in New York for Oregon, carrying 800 to 1,000 tons, in forty-five days, but if all the goods purchased in the former city for the Oregon market, and shipped via Cape Horn were given us, it would be comparatively easy to load a 1,000 ton ship every thirty days.

I am *fixed* in the faith that Oregon is a *country*—and that that country has a future. As the Oregon of to-day is to the Oregon of nineteen hundred, so is the gloomy shadow of the prison cell to the dazzling beams of the noon day sun. But how shall this wonderful change be effected? *Simply by making labor remunerative.* Oregon is possessed of two great resources, agricultural and manufacturing. The State can never be developed until the farmer receives such pay for his products as will remunerate him for his labor. That time will never come, if means of transportation are not furnished on the Columbia river to carry the surplus to a market direct.

Oregon produces to day five million bushels of wheat; but if all her wheat land was cultivated, the yield would be a hundred million bushels. The only reason that we do not now produce twenty millions of bushels annually, is that it costs us thirty cents per bushel to get it to a point on the coast whence it can be shipped to a market. Ship it from Portland *direct* to that market, and give the producer the benefit of that thirty cents per bushel, and, as if by magic, the yield will be quadrupled. If the merchants will not export the grain, let the farmers be their own shippers, by receiving advances on their shipments. There should be at this moment twenty vessels on the way to this port to load with wheat for foreign ports. And if producers of, and dealers in grain, will give a fair support, within three years I will whiten every sea with the sails of noble ships bearing Oregon produce to the great marts of trade and consumption.

I repeat, that, would you develop Oregon, you must first look to the interests of the farmer; make his labor remunerative, and as the result will have a million cultivators of the soil, and no nonproductive land. A. S. MERCER.

Frauds by English Manufacturers.

The manufacturers, traders and shopkeepers of this country, says an English paper, have unfortunately suffered a great loss of reputation both in foreign and home markets. A not inconsiderable proportion of the loss of custom abroad which has been attributed to the pressure of foreign competition, facilitated by free trade and reciprocity treaties, is unquestionably traceable to the fact that the genuineness of our products is not now trusted as it once was. Our cotton goods, our woolens, and even our iron manufacturers, have been largely discredited at various times by the fraudulent processes which have been too often resorted to for the purpose of imposition, and of giving to articles made up of all kinds of rubbish the gloss and appearance of first class productions, for the sake of making a profit which of necessity was evanescent, and ceased to be capable of imposition as soon as the buyer detected the devices resorted to. Nor has the foreigner been the only victim of this dishonest and short sighted avarice. There has not been an article of domestic consumption, in the shape of food and its condiments, that has not been found to be subject to adulteration. In all probability the mischief is effected by a comparatively small number of persons, but the whole body of producers and traders suffer more or less in reputation, however undeservedly. In other countries and in France most notably, these practices are almost impossible—so keen the inspection, sure the conviction, and so prompt the punishment. The doctrine of "caveat emptor" has there no force or acceptation, and in Paris it is recognised as one of the legitimate functions of government to protect its subjects against fraud of all descriptions, whether committed by the director of a public company, a jeweller, a grocer, or a cabman. Yet here what is no difficulty to our neighbors is still a difficulty to us, and our Government and our Parliament are still boggling at the stumbling block in a state of the utmost confusion. This question of manufactured goods for foreign market, it may be conceded, is almost beyond the reach of departmental interference or parliamentary legislation, but it is difficult to conceive why frauds in articles for home consumption, sold in shops at home, should not be easily and effectually dealt with, and it is much to be regretted that our governments, one after the other, exhibit so little interest in the matter. They commit, indeed, a grevious primary error in placing the consideration of the question on the narrow basis of the interests of the buyer, and it was especially a mistake to apply this view to the motion made by Lord Elcho, the night before last, with regard to the adulteration of manures and feed-stuffs. In a preliminary sense, Lord Elcho's motion has fallen through; but it is perfectly possible even now to give practical effect to it; and there can be no valid reason why this should not be done by an instruction to the select committee now sitting, that they shall include in their inquiries an investigation into the question of the alleged adulteration of manures and feed-stuffs.

A Weekly Return of Work in Birmingham. The following is from *The Engineer*, an English paper:

A week's work in Birmingham, in its aggregate results, is something wonderful. It comprises the fabrication of fourteen millions of pens, six thousand bedsteads, seven thousand guns, three hundred millions of cut nails, one hundred millions of buttons, one thousand saddles, five millions of copper or bronze coins, twenty thousand pairs of spectacles, six tons of papier mache ware, £30,000 worth of jewelry, four thousand miles of iron and steel wire, ten tons of pins, five tons of hair pins, hooks and eyes, and eyelets, one hundred and thirty thousand gross of wood screws, five hundred tons of nuts, screw bolts, spikes and rivets, fifty tons of wrought iron hinges, three hundred and fifty miles' length of wax for vestas, forty tons of refined metal, forty tons of German silver, one thousand tons of fenders, three thousand five hundred bellows, a thousand roasting jacks, one hundred and fifty sewing machines, eight hundred tons of brass and copper wares, beside an almost endless and countless multitude of miscellaneous articles, of which no statistics can be given, but which, like those enumerated, find employment for hundreds and thousands of busy hands, and are destined to supply the manifold wants of humanity from China to Peru.

The receipts for subscriptions and sales of newspapers in New York city for the past nine months are published. The *Herald* leads largely for the quarter ending June 30, though its receipts for that time, $208,919, are less than those of the *World* for the preceding quarter, $214,294. The *Herald* returns much the largest receipts for the three quarters, the *World* during the last three months having fallen off to $127,281. The *Tribune* stands third on the list and the *Times* fourth. The receipts of some of the other dailies for the last quarter are as follows:—*News*, $69,750; *Sun*, $49,683; *Express*, $24,763; *Post*, $23,927; *Democrat*, 23,850; *Journal of Commerce*, $23,000; *Commercial Advertiser*, $19,317. Of the weeklies the *Ledger* leads, its sales having been $155,014 for the last quarter. *Harper's Weekly* and *Bazaar* received together $113,098. There are very few others which exceeded $10,000.

At Newport the fashionable programme at the hotels is to rise at nine, or thereabouts, as the previous night's occupation will allow. After breakfasting, a drive is taken to the beach, a bath is indulged in, and the ladies go down to shop. After an elaborate toilet they dine, then dress for a drive on the avenue or wherever fashion may dictate, and at night they are at hops, parties and various ways to pass away the evening, keep to the wee small hours. The intervals are filled up with dressing and undressing, flirtations, gossips, promenades, etc.

DISPATCHES TO THE OREGONIAN.

DATES TO AUGUST 12.

Political News.

CHICAGO, Aug. 12.—Washington specials give the substance of an interview between the President and General Tarbell, Secretary of the Republican Executive Committee of Mississippi, at the residence of Secretary Fish, last Saturday. The President spoke very freely on the situation. He said that the small numbers of those who hitherto acted with the National Republican and are now engaged in the "Dent" movement, is in itself evidence that they could not be otherwise than be used by the opposition. In regard to the recent propositions of the ex-rebels, he said he would do anything to bring about peace, but these people cast suspicions upon their own motives by the fact that all their efforts seemed intended to divide and not aid the Republican party. If they were really in earnest they would not be so anxious about those with whom they acted. It is not difficult for sincere men to tell who have been friends of the Administration in the South. He declared that their sympathies were all with the Republicans and against any efforts to divide them, from whatever source. He spoke warmly in praise of Gen. Ames, the Military Commander, and fully endorsed his course. In regard to Virginia, he believed Gov. Walker intended to act with the Administration, but regretted the failure of the efforts of Col. Jenkins to unite the two wings of the Republican party in that State. He said that Dr. Miner's reply to Jenkins' letter showed that the followers of Walker were not all acting in good faith.

A report of the interview has been written out and will be submitted to the President when printed, for his approval.

It has become known that the object of Judge Dent's visit to Long Branch was to induce the President to support him for Governor of Mississippi. Grant refused, and said he had no sympathy with the movement.

Daniels, Chairman of the Walker Republican Committee, has issued a circular advising the members elect of the Legislature to take no notice of Gen. Canby's circular asking the members of the committee if they can take the test oath.

PHILADELPHIA, Aug. 12.—The National Executive Committee of the Union League of America, met yesterday. An exhaustive report on the state of the Union League throughout the Union, was read by the Secretary. Measures were adopted to aid the pending elections in Mississippi, Texas and Pennsylvania. An address will be issued to the League throughout the United States on the subject of adhering to the objects of the organization and sustaining the Administration. Resolutions warmly endorsing the removal of the conservatives of Mississippi and other States were adopted. The charter of the State Council of Mississippi was revoked, and Mr. A. Nygate was appointed special Commissioner to reorganize the Order there.

New York News.

NEW YORK, Aug. 12.—Judge Nelson yesterday, denied the application of Henry D Palmer for an injunction to restrain John McDonough from producing the play entitled "After Dark."

Commissioner Shields yesterday decided that lottery ticket venders selling as agents or clerks of other parties, are under law dealers, and as such must pay the special tax.

A riot occurred in the Fourth Ward last night among political roughs. Pistols were used. All parties were too drunk to do any damage.

The Chinese commercial agents Sing Man and Choy Chew arrived at the Metropolitan Hotel last evening.

Miscellaneous.

CHICAGO, Aug. 12.—Specials from New York say that 140 Mormon families started west last night.

Marshal Barlow has delivered the Spanish gunboats to the Navy Yard authorities. The builders have been notified that they can continue work but the vessels must not leave their moorings.

The Turner Fest concluded last night, after the distribution of prizes, with a grand ball.

BUFFALO, N. Y., Aug. 12.—Michael McCoole the noted pugilist, was attacked while unarmed last night, by Ed. Burns, a Chicago rough, and badly cut and beaten with brass knuckles. There is great excitement among the sports in consequence. McCoole has the sympathies of the public.

MACON, Ga., Aug. 12.—The first bales of the new crop of cotton were received to-day, from Baker county.

Movements of Vice President Colfax.

COLFAX, Aug. 12.—Vice President Colfax and party, with a special train, passed through at 4:20 this afternoon en route west. The whole town turned out en masse to welcome the distinguished visitor and honored him with a salute of fifteen guns. Appearing upon the platform, he acknowledged the compliment in a very happy and appropriate speech. A deal of enthusiasm was manifested. After three cheers for the President, the Vice President and ladies accompanying the party, the car departed.

Cuban Affairs.

HAVANA, Aug. 12.—Bad weather and a deficient commissary prevent military operation on both sides. The insurgents suffer more from sickness on account of lack of medicine and medical attention.

BY ATLANTIC CABLE.

LIVERPOOL, Aug. 10.—Morehead attended the Council of the Chamber of Commerce, yesterday, and gave information in regard to the resources of the Southern States, in view of their future development in connection with trade between England and the United States.

The London *Times*, in an article on the abolition of the Irish Church establishment, says that whatever may be the practical result, the measure is the boldest and greatest act of modern legislation. In consequence of the measure the authorities of Trinity College have withdrawn their opposition to the proposal for admitting Catholics and nonconformists to fellowship. The Irish Bishops have spoken good sense in admitting that the laity as well as the clergy should concur in the election of the priests of the new Church. The Catholics accept their triumph with gratitude.

GLASGOW, Aug. 10.—The new Inman steamship *City of Brussels* was launched to day.

DUBLIN, Aug. 11.—At Tubbernath, Sligo county, a party of twenty-five men attacked a dwelling and captured some firearms. Six of the marauders were arrested and two or three were identified as persons formerly imprisoned for Fenianism.

LISBON, Aug. 11.—The Upper House has censured the Ministry. The resignation of the entire Cabinet is considered imminent.

FLORENCE, Aug. 11.—The Governments of Austria and Italy have exchanged satisfactory explanations in regard to the recent riots between Austrian and Italian sailors.

COWES, Aug. 12.—The regatta of the Royal Victoria Yacht Club commenced on Monday and will continue through the week. In the race for the Vice Commodore's plate, yesterday, sixteen yachts started. Time was allowed for difference of tonnage. The *Cambria* came in second, but was declared winner by allowance of time.

The international ocean yacht race will not take place. The *Dauntless* will shortly return without sailing against the *Cambria*, but probably the latter will go to New York and sail in a race against American yachts.

MADRID, Aug. 12.—There is a provision in the martial law which requires the assembly of a Council of War to try insurgents. It is untrue that the troops shot all individuals suspected of Carlism without any kind of trial. Nine persons have been summarily shot in the vicinity of Barcelona, which created a very bad impression among the people.

It is reported that Gen. Prim intends to offer the crown of Spain to King Louis, of Portugal, in which case Spain and Portugal will be governed in a similar manner to Austria and Hungary. The King would divide his residence between the two capitals.

There have been some further failures among firms in the cotton trade at Preston.

NEVADA.

Rike Dispatch.

ELKO, Aug. 12.—A new discovery has been made in the Cope District, rock found which assayed over three thousand dollars to the ton. I. C. Sellers, an old and well known miner, pronounces the placer diggings good, and says the best mines yet located are the California, Argenti, Hamilton and Mammoth. They are number one mines. The Fuller and Tell, Great Eastern and Crescent are good. A number of other ledges have been located that show good rock, but are not developed as yet. The richest rock yet found in the California ledge was obtained twenty feet from the top of the ledge, and the rock grows richer as they go down. Wood in abundance can be obtained at from six to eight miles from the town and water in abundance. A rich ledge of copper has been discovered at Butte Mountain.

The bullion shipments by Wells, Fargo & Co. were eight bars to San Francisco, weighing 670 pounds, valued at $12,606 12.

Dispatch from Virginia City.

VIRGINIA CITY, Aug 12.—The stages are now running full both ways. The arrivals and departures are about equal. Most of those leaving the city are bound to various parts of California on pleasure excursions. A considerable quantity of freight is coming into the city. The roads are in excellent condition.

A messenger boy of the Western Union Telegraph company, was returning to his home on Carson street in this city, he was stopped by a foot-pad and robbed of $20 50. This robbery was committed in a thickly populated portion of Carson street.

Great complaints are being made against the Virginia & Gold Hill Water company because of the exhorbitant rates charged by this monopoly for water. Recently these rates have been nearly doubled. If these exhorbitant charges are continued, it is probable that the citizens will help themselves rather than submit to such extortion.

Wells, Fargo & Co. shipped last night, five bars of bullion valued at $7,417 80. Pacific Union shipped one bar, value, $1,753 06. Total, $9,170 86.

OUR SAN FRANCISCO DISPATCH.

SAN FRANCISCO, Aug 12—The Republican Municipal Convention met last night and appointed a committee to confer with the Independent nominating convention and ask their co-operation in selecting candidates for municipal officers. No nominations will be made until after the report of the committee of conference.

The Democratic Municipal Convention met last night and accomplished nothing.

The Democratic Judicial Convention last night nominated for Justices of the Peace, Michael Cooney, F. A. Sawyer, C. Corkey, James C. Pennie and T. W. Tulsfaro.

The report of the committee of conference with the Municipal Convention was read. It recommends the endorsement of the Sacramento platform.

The Independent Municipal Convention met last evening. Communications from candidates were read and referred to the committee on nominations. Convention adjourned till Friday evening.

The Police Commissioners yesterday dismissed charges against officer Jacob Earnest and officer Cobb. Both have been reinstated.

Dr. A. C. Williams attempted to commit suicide at the Lick House, about 1 o'clock this morning, by shooting himself with a pistol. He arrived in this city yesterday with his mother, Mrs. Gen. Williams, and took rooms at the Lick House. About 1 o'clock he came home, but instead of going to his own room, he entered that occupied by his mother. A few minutes afterward the report of a pistol was heard and then the screams of Mrs. Williams alarmed the house. The clerk and several waiters hastened to the room and found Dr. Williams laying on a sofa with the warm and smoking weapon in his hand. Physicians were immediately summoned, who found that the ball had entered Dr. Williams mouth and lodged in the fleshy integuments of the neck, inflicting a dangerous but not necessarily fatal wound. No cause is assigned for the rash act. Dr. Williams had been living on an estate in the country which belonged to the family, and it is stated that he and his mother came to this city on business connected with the property.

A fire occurred at 12:30 A. M. to-day on Octavia street, by which a large two-story frame house belonging to John Berger was wholly destroyed. The house was unoccupied.

Admiral Farragut visited Mare Island yesterday and was received with a salute of 17 guns.

John Braden commenced an action to-day in the 15th District Court against B. Marks to recover five thousand dollars damages, because defendant slanderously called him a thief.

Stock Market.

Mining stocks have seldom been so demoralized as now. The bottom of the market seems to have fallen out. The current low prices would not have been regarded as possible a few weeks ago. Values have been steadily settling for some time, and there is no telling when the bed rock will be reached. At the Board this morning nearly all descriptions received a severe blow from the morning Board yesterday. Kentuck declined $1 05; Savage, $13 50; Hale & Norcross, $13; Gould & Curry, $11 50; Yellow Jacket, $5 00; Crown Point, $3 50; Imperial, $3 00; Belcher, $27 50; Original Hidden Treasure, $2 00; Belcher, $1 50; and American, $1 00. The above decline in Savage is equal to $2 70 per foot; in Hale & Norcross, $26, and if Yellow Jacket, $100 per foot. Gas has fallen to 81½ asked; Water is firmer, 61 being bid. Gould & Curry, 75; Savage, 15; Cholar, 180; Hale & Norcross, 90; Crown Point, 20; Yellow Jacket, 35; Kentuck, 140; Overman, 59. Selling—Belcher, 6; American, 27; Lady Bryan, 30.

THE FATALITY OF LOVE FINDS A CURIOUS ILLUSTRATION.—We take the following from the Nashville (Tenn.) *Press* of July 6th:

A young gentleman named Joe White, a very respectable, industrious, quiet, good looking fellow of about 18 years of age, and a resident of Germantown, went to South Nashville, Saturday night, to visit his lady-love, a Miss Barnes. He had been frequently to visit her before at various times. They were engaged to be married. He found her in the parlor, sewing, as a proper young lady should be. She was anxious to finish the article, and therefore concluded not to throw it aside when he entered, particularly as he complimented her on her pretty appearance, with her slender fingers flying as she plied the stitches with as much grace and rapidity as other girls display when skimming over the keys of a nasty piano. He took his seat beside her. They chatted together very gayly. After waiting a few minutes, which to him seemed hours, he became impatient, and longed to imprint a chaste kiss upon her ripe and pouting lips. With the view of carrying out his design, he let his arm circle her waist furtively, and, as he was drawing her close to himself, she objected being disturbed until her little work was finished; but he insisted. She made a motion to shove him off, as girls are said to, generally. This motion proved fatal to her happiness and to her life. He became impatuous, and, drawing her to him with much violence, the needle, which was caught in her thimble, got between them, the point towards his heart. It entered, and as he was about to imprint a kiss of love upon her lips his own became ashy pale. His vigorous grasp relaxed, and then the fire of love died out, as if by a celestial puff, at the moment of contact. He sickened, fell back upon the sofa, quite helpless. The young lady was much alarmed, and ran for assistance. The family all ran into the room and proceeded to open his shirt collar, thinking he had a fainting fit, and that the usual restoratives would suffice. In undoing his vest it was found that the needle had penetrated his side very deeply, a circumstance which the young lady never noticed in her fright. The doctor was sent for. He administered what remedies he could. Partial consciousness was restored and he was enabled to talk. The scene between him and his first, last love was extremely affecting. She wept like one who feels that all happiness on earth is lost, and he seemed to regret her loss and not his own condition. He consoled her by saying that she would soon get another lover to fill his place, who would be more worthy of her than he could hope to be, and who would make her happy. This but increased her sorrow. She sank down upon the floor beside him and cried aloud. When he was becoming worse, and the doctor gave the emphatic opinion that he could not live, she started suddenly to her feet, and, running into another room, swallowed a heavy dose of laudanum which was kept there for the use of a young member of the family that was sick. It was some time before she was discovered and it was with the utmost difficulty she was brought back to consciousness. The first word she uttered was, "O, where is he? let me go to him, I will be with him." At the same instant the young gentleman was resigning his spirit into the hands of its Maker, in the adjoining room. He died about ten o'clock. She is still in a precarious condition, and evinces symptoms of insanity.
